Work Experience

On the Job Training

Accreon, Winter 2017

As a part of my Computer Information Systems course, I was given the role of junior developer for ten weeks. My main responsibility was learning and developing automated Junit tests using Selenium software within an agile environment.

Intern

IT Garage, Summer 2016

Leading a team of individuals, and programming the front end of a tourism application using HTML, CSS and PHP. Also pitching the product to IT professionals, and meeting with potential clients of the application to make design modifications to the product in accordance with their desired specs.

Sales Associate

The Source, 2015-Present

Providing excellent customer service and educated assistance to customers with specific electronic needs.

Elkeno Q. Jones

Electronics Systems Integrator

Touch Control Ltd., 2011-2015

Providing home automation installation and servicing to mid-class to high upper class customers, this included providing excellent customer service when entering a person's home.

Elkeno Q. Jones

Leadership Positions Held

- Co-founder of Honor Love Brotherhood (The Bahamas) – **2014-2015**
- Junior Youth Leader – Living Waters Kingdom Ministries – **2010-2015**
- Prefect - Jordan Prince Williams **2008-2010**

Fields of Interest

- **Business Analysis and Consulting.** The Computer Information Systems (CIS) course has inspired interest in using Information Technology to solve and improve business operations.
- **Electronics Systems and System Integration.** While working in the field, often times I assumed a leadership position in training a new employee.
- **Interactive Media and Game Development.** Upon completion of my studies, I plan to enter the video gaming industry with my acquired programming skills.
- **Sports.** Back home two brothers and I formed a sporting club for boys and young men.
- **Drawing.** I am a creative individual, and find putting pencil to paper is an awesome hobby and mode of expression.
